ENGINEERED PARQUET

PARQUET.UNIWOOD.UK

HIGH QUALITY ENGINEERED PARQUET FROM OAK AND PLYWOOD

Our engineered floor boards are made with a top layer of solid-sawn 4mm wood. The lower layer is made of water resistant 10-12 mm plywood.

Functionality

In contemporary operational contexts, the demand for materials is twofold: they must be environmentally friendly and natural, all while delivering functionality. This particular material not only boasts an impressive aesthetic appeal but also seamlessly accommodates installation over underfloor heating systems.

ENGINEERED PARQUET IS A
COMBINATION OF OAK AND PLYWOOD

Variety of Designs

Our parquet flooring offers a range of design options, including the timeless classic board, the distinctive chevron pattern at angles of 45 or 90 degrees, intricate geometric shapes, and even a modular board arrangement for unique patterns.

WE USE NATURAL OIL AND NATURAL PIGMENTS
TO GIVE OUR PARQUET NATURAL SHADES

Color Selection

Our parquet is versatile when it comes to color. You have the option to preserve its natural appearance for long-lasting authenticity by applying natural oil. Alternatively, you can imbue the parquet with vibrant colors or subtle hues, adding a touch of uniqueness to your interior space.

Grade – 1st quality or Select (Is without knots)

Finish – Raised grain or sanded.

Painted - 2 applications of paint or oil stain with UF resistance.

While we may not be a large-scale factory, this is what sets us apart – each client holds immense significance in our eyes.

Our expertise lies in customizing parquet boards to your exact specifications. Whether it's painting them in a variety of colors, processing them to your desired texture or aging, we can bring your vision to life. We meticulously select the ideal board size and craft each piece according to your unique needs.

Elevating our offerings, we can create stair treads or entire staircases that harmonize flawlessly with your parquet's hue. Additionally, we can bring your design concepts to reality by crafting railings based on your sketches.
